WARNING TO PARTY LINE USERS: Wisconsin State Law provides in part that "whoever intentionally refuses to yield or surrender the use of a party line to another person for the purpose of permitting such other person to report a fire or summon police, medical or other aid in case of an emergency, shall be fined not less than $50.00 nor more than $500.00," and "whoever intentionally asks for or requests the use of a party line on the pretext that an emergency exists, knowing that no emergency in fact exists, shall be fined not less than $50.00 nor more than $500.00." The law defines an "emergency" as "a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential."

HOW TO USE THE DIAL TELEPHONE
AT GREEN BAY AND DE PERE

Local calls to Green Bay and De Pere telephones are made by dialing the first two letters of the central office name and all five numerals.

1. Be Sure of the Number

Look up the correct telephone number in the latest issue of the telephone directory. Assume that the number desired is HEmlock 2-1050. Jot it down for easy reference.

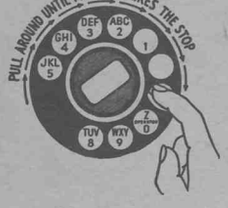
2. Listen for Dial Tone

Lift the receiver and **listen until you hear the dial tone,** a steady "humming" sound. This is your signal to start dialing.

3. Dial Carefully

With the receiver off, place your finger in the opening in the dial associated with the letter "H."

Pull the dial around until your finger strikes the stop. Release the dial and allow it to return **without interference.**

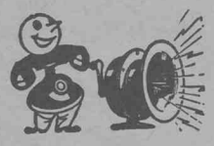


In the same manner dial the letter "E" and the numerals "2," "1," "0," "5" and "0" in the order in which they appear in the directory.

If you dial the letter "O" for the numeral "0" (zero), or the letter "I" for the numeral "1," you will reach a wrong number.

If your finger slips or an error is made while dialing, hang up for a few seconds, and then dial the complete number again.

After you have finished dialing you should hear the ringing signal (a burr-rr-ing sound) the busy signal (a rapid buzz - buzz - buzz sound) or—



the no-such-number signal, a series of subdued siren-like tones, telling you a mistake has been made in dialing.

If you continue to receive busy signals when dialing another party in your locality, the number may be on your line.

How to Call Another Party on Your Line

To call another party on your line, it will be necessary to dial a code number instead of the directory number. If you do not have the code number of the party on your line whom you wish to call, dial "Operator", explain that you are calling another party on your line and ask for the proper code.

After dialing the code number, replace your receiver to allow the other party's bell and your bell to ring. When the ringing stops, it indicates that the called party has answered.

If your party does not answer within a reasonable period, lift your receiver momentarily in order to stop the ringing.

Party Lines and Extension Telephones

On party lines or on lines with extension telephones, if you lift the receiver and hear a series of clicks, it indicates another party is dialing and that you have interfered with his call. Tell the other party that you have interfered, and ask him to dial over again. Replace the receiver and wait until the line is not in use.

How to Make Emergency Calls

Dial the Emergency Telephone Number as shown on the Inside Front Cover of this Directory or dial "Operator" and ask for the Fire or Police Department. Tell your story briefly, calmly and distinctly, giving your name, the address of the emergency, and the nearest street intersection.

To dial "Operator" in the dark, place your finger in the first opening below the finger stop. Then turn the dial completely around and let it return in the usual manner. When the operator answers, explain the circumstances and give her your call.

LONG DISTANCE CALLS

Station-to-Station Calls

When you want us to do nothing more than to connect you with an individual line or party line telephone or private switchboard, dial "Operator" and tell her the city, state, and the telephone number.

The charge for a Station-to-Station call begins when the called telephone or private switchboard answers.

Person-to-Person Calls

When you want to be connected with some particular person or with a particular telephone or department reached through a private switchboard, dial "Operator." Tell the operator the city, state, and person or department wanted, and also the telephone number and extension number if you know them.

The charge for a Person-to-Person call begins when you reach the person, extension or department you want.

Collect Calls

If you request it, the operator will ask the person you are calling if he will pay the charges. Collect Station-to-Station calls within Wisconsin cost 10 cents more than other calls. No extra charge is made on collect Person-to-Person calls.

Requests for Charges

If you wish to be told the charges on a particular call, make the request when you place the call or when you accept a "collect" call. Typical Long Distance Rates may be found on Page One of this Directory.

Reduced Rates

Between 6 P.M. and 4:30 A.M. and all day Sunday, reduced rates are in effect. On calls within the State of Wisconsin a Family Visit Call rate is in effect from 9 P.M. to 4:30 A.M. every night. On Family Visit Calls you may talk for 10 minutes at the 5 minute rate and pay only the per minute rate for each additional 2 minutes over 10.

The time of day, at the originating point, when conversation starts, determines whether DAY, NIGHT and SUNDAY or FAMILY VISIT CALL rates apply.

Conference Calls

You can talk from your telephone simultaneously to a number of other telephones anywhere. You need no special equipment—the rates for conference telephone connections are low. Just dial "Operator" and ask for the Conference Operator and give her the details of your call.

GENERAL INFORMATION FOR SUBSCRIBERS

Business Office

Our Business Office is located at 112 N. Adams Street, Green Bay, and is open from 8:30 A.M. to 5 P.M., Monday through Friday. Our telephone number is HEmlock 2-5501. Applications for service, directory listings, moves, changes, discontinuance of service, or bill inquiries should be directed to our Business Office.

Payment of Telephone Bills

Payment of bills may be made in person at our Business Office or at any of the authorized payment agencies, or by mail. If payments are made by mail, please enclose the bill stub or a memorandum showing the telephone number, name and address of the account which is being paid.

A payment depository is located at the entrance to the Business Office at 112 N. Adams Street, Green Bay, for the convenience of customers wishing to make payments at any hour of the day or night including Sundays and holidays. Please enclose bill stub.

Management

Our aim is to render a telephone service that will be satisfactory in all respects to the public. We realize, however, difficulties will occasionally occur despite our best efforts to avoid them.

If at any time, difficulties are not promptly corrected or unsatisfactory conditions continue, we shall appreciate your communicating with the Manager.

Rates

A Schedule of Rates effective in the Green Bay and De Pere Exchanges is on file at the Business Office and may be examined there.

Local Messages

If you reach a wrong number when calling from a message rate telephone, please inform the operator. She will arrange for credit on the call.

Use of Lines

Customers on party lines are expected to limit their conversations to five minutes at one time.

Service Calls

On the Inside Front Cover under Long Distance and Service Calls is a list of what to call when you want assistance in completing calls, to obtain telephone numbers of subscribers not listed in the directory, or to report telephones out of order.

No charge is made for local calls to any office of the Company.

Calling Fire or Police Department

Regular calls for the Fire or Police Department should be made by consulting the telephone directory and calling the proper telephone number.

In an emergency dial the telephone number as shown on the Inside Front Cover of this directory or dial "Operator" and ask for your Fire or Police Department by name. Instructions for dialing Operator in the dark are given on Page 2 under "How to Make Emergency Calls."

International, Aircraft, and Ship Telephone Service

Telephone service is available from your telephone to certain foreign countries, subject to such limitations with respect to completion as may be enforced from time to time by the government of such country, or by the United States Government.

Telephone service is also offered to certain aircraft, and to many ships on inland waterways, coastal waters and the high seas, when they are within reach. To place a call from your telephone to an aircraft or vessel, call "Long Distance."

Mobile Telephone Service

Mobile Telephone Service provides two-way voice communication between any telephone reached by the Bell System and an automobile, truck, boat, etc., suitably equipped with a mobile radiotelephone.

To place a call to a mobile telephone dial "Operator" and ask for the Mobile Service Operator.

For rates or other information regarding mobile telephone service please call the Business Office.

Directory Errors

The Company makes every effort to prevent errors or omissions in the publication of its directories. The Company's liability however arising from errors in or omissions of directory listings shall be limited to resulting impairment of the customer's service, and the Telephone Company may discharge such liability by an abatement or refund of an amount not exceeding the charge for the service, excluding additional message charges, during the period covered by the directory in which the error or omission occurs.

Ownership of Directories

Directories are the property of the telephone company and are to be returned to the telephone company on request. No binder, holder, or auxiliary cover, except such as may be provided by, or with the consent of, the Telephone Company, shall be used in connection with any directory furnished by the telephone company.

Other Directories

Telephone Directories of the Principal Cities throughout the Country may be obtained by any of our customers desiring them, on payment of the charges made by the issuing company. Prices and other information may be secured by calling our Business Office.

Identification of Employees

Patrons are cautioned against the possible entry into their premises of fraudulent persons posing as Repairmen, Inspectors or Collectors. Employees of the Company, duly authorized to install, repair or remove telephones, or collect for service are provided with credentials. Please guard yourself against any misrepresentation by asking to see these credentials.

Telephone Attachments

The Company is responsible for satisfactory telephone service. It cannot permit the use of any equipment or other apparatus in connection with that furnished by it except as authorized in the tariffs of this Company.

"Beep" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on your telephone about every 15 seconds is a warning that your conversation is being recorded. This warning signal is provided by the Telephone Company for your protection. Use of a recorder without this signal is contrary to the Telephone Company's tariffs and is not permitted. If you do not want your conversation recorded, ask the person with whom you are talking to disconnect the recording machine. When the recorder is disconnected, you will no longer hear the "beep" tone.

extension phones

in *Color* are

easy

ON THE EYES

Rooms come to life with the accent that color phones bring. Warming colors, charming colors—they offer a "decorator touch" that will give your rooms a lift.

easy

ON THE FEET

Extension phones are a wonderful way to save steps and time—have them handy in *your* home. They will help make the day's work easier and more fun.

easy

ON THE BUDGET

The cost is low . . . for example, the cost of *three* extension phones per day is about the same as the price you pay for a cup of coffee. There is a one-time-only charge for color phones.

To order just call your telephone office or ask any telephone employee.

Ask for a "Night Light" Phone for your bedroom

Glows softly through the night... lights brightly to dial, when you lift the phone.

BELL SYSTEM

WISCONSIN TELEPHONE COMPANY

this seal
on a
new home
says:

"thoughtful builder"

You'll find telephone wiring done and telephone outlets placed in handy, sensible locations when you inspect a new home where this seal is displayed.

Many alert Wisconsin builders are thoughtfully providing this "pre-wiring" service in homes they build. Our installation engineers lay out and install the wiring *before* finished walls and woodwork are in. Wiring is concealed, and possible scars in your walls and woodwork avoided.

And—you can have your telephones just where you need them—in your *living* areas, *working* areas, *sleeping* areas. Be sure this hasn't been overlooked in *your* new home.

Modern homes have plenty of phones

Talk to your architect or builder, or call the telephone office and ask for —

INTERESTING FACTS ABOUT

GREEN BAY

(Compiled by the Green Bay Association of Commerce)

HISTORICAL BACKGROUND

The story of Green Bay, or "La Baye" as the French Voyageur Nicolet called it, is actually the story of the early history of Wisconsin and the entire Middle West. In 1634—just fourteen years after the landing of the Pilgrims at Plymouth—Nicolet entered "La Baye" at the junction of the Fox and East Rivers. A procession of great men in American history followed Nicolet through this gateway to Wisconsin and the Mississippi Valley.

Father Claude Allouez, in 1670, entered the Fox River and established a mission at the De Pere Rapids. Following him were Nicholas Perrot, the region's first governor, Father Marquette and Joliet, and many others.

In 1701, the French erected a stockade on the strategic west bank of the Fox, naming it Fort St. Francis. The fort was destroyed by its builders in 1728, but later rebuilt, and finally taken over by the British in 1761. In 1816, an American force took possession of the fort, renaming it Fort Howard. Since that time the American flag has flown continuously over the growing "La Baye" community. The name Fort Howard continued as the name of the community on the west side of the river until it was incorporated with Green Bay in 1895.

Green Bay today is a pleasant mixture of one of the most progressive and rapidly growing cities in Wisconsin while still one of the most beautiful and charming of residential cities.

MUNICIPAL GOVERNMENT

Green Bay has a mayor-aldermanic form of municipal government. The mayor and twenty-four aldermen are elected for terms of two years.

POPULATION

Official 1950 census figures place the population of Green Bay at 52,735 and 105,900 for the metropolitan county area.

Estimated 1958 figures place the population of Green Bay at 66,000 and 125,000 for the county area.

The city itself comprises an area of approximately 15½ square miles with an assessed valuation of nearly $144,731,825. The city is 582 feet above sea level.

BUSINESS AND INDUSTRY

Green Bay is both a center of industry and a major Wisconsin distributing point.

Principal manufactured products are paper products, industrial machinery, construction equipment, foundry products, automobile parts, office furniture, and many lines of canned foods. The principal industry is paper making. The city has four large paper mills, three pulp mills and four paper-converting companies. Green Bay is also the largest cheese processing and shipping center in the nation.

Green Bay is second, only to Milwaukee, as the state's largest wholesale and distributing point. Principal wholesaled items here are groceries, hardware, produce, building materials, plumbing and mill supplies, iron and steel, and dairy products.

EDUCATION

More than 18,000 students attend Green Bay's 29 schools—17 public schools, including two junior high and two senior high schools, and 12 parochial schools. The number of teachers here totals more than 570.

The public library, operated by the city at four locations, has a collection of 185,000 volumes. A traveling "bookmobile" serves Brown County residents.

TRANSPORTATION FACILITIES

Green Bay has one of the finest harbors on the Great Lakes. Nestled in an arm of Lake Michigan at the mouth of the Fox River, it has a depth of 23 feet. The marine tonnage entering the harbor has annually averaged more than 4,000,000 tons. Barge lines operating on the Fox River as far south as Oshkosh carry an average of 300,000 tons of shipping yearly.

Four railroads provide freight transportation and passenger service. Twenty-four truck lines, operating out of ten terminals, offer daily freight service, within the city and throughout the nation.

Two airports, one city-operated, serve aircraft in this area.

UTILITY AND EMERGENCY SERVICES

The basic community services for Green Bay, including electricity, gas, water, telephone, and fire and police protection are adequately provided.

There are 21,000 business and residential users of electric power.

Gas service is provided to 17,549 business and home users.

The Green Bay area is served by a modern dial telephone system which provides service to more than 37,500 telephones. More than eight out of every ten Green Bay area families have telephone service.

Water is supplied by a municipally-owned system to 16,500 premises. Capacity of the water works is 20,000,000 gallons a day. Daily average pumpage is 9,500,000 gallons.

The police department has a force of 95 men and operates 20 motor vehicles. The fire department has a 98-man force, four stations, and ten motor vehicles.

NEWSPAPER AND RADIO FACILITIES

Green Bay has one daily newspaper and a weekly agricultural newspaper with statewide circulation.

Three radio stations and three television stations, offering both local and network programming, serve the city and surrounding area.

RECREATION AND SPORTS

For more than a quarter of a century, the top Autumn sports attraction here has been the fabulous Green Bay Packers. Truly a phenomenon in the sports world, the Packers have captured the world's championship in the National Professional Football League six times (1929, 1930, 1931, 1936, 1939, and 1944).

The Packers, worth thousands of dollars to the city in publicity each year, are operated by a non-profit organization, The Green Bay Packer Corporation, made up of local civic-minded business and professional men.

Twenty-one parks with facilities for just about every sport and recreational activity are available to Green Bay area residents. The parks cover a total of 700 acres.

Golfers have the choice of four golf courses.

Seating capacities for entertainment, including variety, cultural and athletic events in Green Bay, are amply provided by the new City Stadium which has a capacity of 32,500, the Brown County Arena which has 5,200 seats, and five theaters with a total capacity of over 6,000.

INTERESTING FACTS ABOUT

DE PERE

(Compiled by the De Pere Chamber of Commerce)

HISTORICAL BACKGROUND

In 1634—over three centuries ago—Jean Nicolet, the first known white man to visit Wisconsin, gazed at the wooded shores on the Fox River at the site which is now De Pere. Nicolet, portaging the rapids south of the present city, had shortly before made his historic landing at Red Banks on the shores of Green Bay.

A missionary, Father Claude Allouez, came to the site of the present city in 1671 and gave the city its name. Father Allouez titled the rushing waters of the Fox River "Rapides Des Peres," or Rapids of the Fathers. As the settlement grew, and with the American habit of abbreviation contributing, the community became known as De Pere.

In that same year, Father Allouez also erected the first chapel in Wisconsin at the foot of what is now George Street. It was in this mission that Father Marquette and Louis Joliet spent the Winter of 1673. Although a fire destroyed the original chapel, it was rebuilt in 1685.

The village of De Pere was incorporated in March, 1857, and West De Pere in 1870. In 1883, De Pere was incorporated as the city of De Pere, and the people of West De Pere moved to become incorporated as the city of Nicolet. Four years later, Nicolet became the city of West De Pere. Consolidation of the two cities was approved by the state legislature in 1890.

GOVERNMENT AND POPULATION

De Pere has a mayor-aldermanic form of municipal government. The eight aldermen and the mayor are elected for terms of two years.

De Pere's population totaled 8,126, according to official 1950 census figures. Its current population is estimated at 10,500.

BUSINESS AND INDUSTRY

The city has rapidly developed into an industrial and agricultural center.

De Pere has nine major manufacturers producing such items as dairy products, furniture, iron castings, tile and other clay products, paper products, and equipment for industry and farming.

As the center of dairy-rich Brown county, De Pere's stable economy also depends on agricultural products. In 1952, the county has 33 cheese factories. That same year, the county's dairy herds were responsible for 2,761,000 pounds of butter, more than 10 million pounds of condensed products, over a million pounds of cottage cheese, and a half million pounds of ice cream. The county's main crops are hay, oats, and corn.

EDUCATION AND CULTURE

The city boasts of one of the best integrated school systems in the nation. There are seven graded schools, three high schools, and a liberal arts college with a combined enrollment of more than 5,000 students.

The De Pere Public Library on Main Street, operated by the city, has more than 40,000 volumes.

The community's liberal arts college, St. Norbert's, is a co-educational institution with an enrollment of 1100 students. Founded in 1898 by the Rt. Rev. Bernard H. Pennings, O. Praem., the college offers primarily a liberal arts curriculum. Recently though, it has added fully recognized courses in elementary and secondary education, business administration, and medical technology. An ROTC program is directed by the U. S. Army for male students at the school.

CHURCHES

Nine churches in De Pere participate in the community's religious activities. They are St. Anne's Episcopal Church, First Congregational Church, First Presbyterian Church, Hope and St. John Lutheran Churches, and the Catholic churches of St. Francis, St. Mary's, St. Joseph's, and St. Boniface.

De Pere is also the North American home of the Catholic Norbertine Order. Started as a priory by Abbot Pennings in 1898, it was raised to the full status of an abbey in 1925. Commonly called the "White Fathers," the Norbertines have operated St. Joseph's Church here since 1898. The church is the national shrine to St. Joseph which annually attracts religious pilgrims from all parts of the continent.

UTILITY AND TRANSPORTATION SERVICES

The basic community services for De Pere, including gas, water, electricity, telephone, and police and fire protection are adequately provided.

De Pere's 40 miles of improved streets are well lighted with ornamental light fixtures on business streets and adequately illuminated in residential areas.

The city operates a municipal water utility with artesian wells as the source of supply, a sewage disposal plant, and a complete system of storm and sanitary sewers.

A modern dial telephone system serves more than 5,000 telephones in the De Pere area. Eight out of every ten families have telephone service.

The city is served by two railroad lines providing passenger and freight service to the area.

A major bus lines furnishes service north, west, and southbound.

An air line with numerous daily flights serves the city at Austin Straubel Airport.

NEWSPAPER, RADIO, TV FACILITIES

The city's residents are served by a weekly De Pere newspaper, three radio stations in the immediate surrounding area, and a number of television stations within transmitting distance.

Transmitters for a radio and a television station are located at De Pere.

PARKS AND RECREATION

Situated in the heart of Wisconsin's vacationland, De Pere's recreational facilities are designed for both the resident and the tourist. Three fully equipped municipal parks with supervised playground activity have been developed. Throughout the city there are ample facilities for baseball, football, basketball, bowling, fishing, sailing, and the popular Winter sports of ice-boating, skating, and tobogganing.

On the Fox River, the city possesses one of the finest boating sites in the nation. In 1954 the facilities were used for the National Outboard Motorboat stock races.

De Pere is also the home of the Northeastern Wisconsin Fair which annually attracts thousands of visitors.

And for those "short family outings," the city offers picnic facilities at the Fairgrounds and Sportsman's Park as well as drives through the scenic and historic countryside surrounding the city and along the Fox River.

SPEAKERPHONE TELEPHONE

Gives telephoning a "new dimension." Speak from a distance of several feet into the microphone in the telephone's base . . . hear perfectly through small speaker on desk. It is not necessary to touch or lift the hand-set even when dialing . . . or, the telephone can be used in the conventional manner when preferred.

On Duty Always
—*day and night*

What else gives you so much for so little as your telephone?

It saves you time, work and money. In an emergency it could save a life.

No price can measure its usefulness

this sign says..

"thoughtful builder"

When you see this emblem on a new home, you know it has been "pre-wired" for convenient telephone service — with built-in outlets throughout the house so that your phones will always be just a reach away.

Many alert architects and builders are thoughtfully including this service in the homes they build. Be sure to specify telephone "pre-wiring" in *your* new home *before* construction begins.

Talk to your architect or builder or, call the telephone office and ask for —

"Home Telephone Planning Service."

The "Spirit of Service" is a tradition in the telephone business — a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

The "Spirit of Service" is a tradition in the telephone business — a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

EXTENSION BELL

Keeps the whole household within earshot of the telephone whether they're indoors or out. The loud-ringing bell is best for patios, workshops and garages. An extension bell of normal volume is usually suitable for indoor locations.

Could you get to the phone in less than a minute?

Don't—*please* don't—hang up before the person you're calling has time to answer! Remember how annoyed you feel when you reach your telephone just a few seconds too late! So *do* wait *at least a full minute* before hanging up, won't you?

this sign says.. "thoughtful builder"

When you see this emblem on a new home, you know it has been "pre-wired" for convenient telephone service — with built-in outlets throughout the house so that your phones will always be just a reach away.

Many alert architects and builders are thoughtfully including this service in the homes they build. Be sure to specify telephone "pre-wiring" in *your* new home *before* construction begins.

Talk to your architect or builder or, call the telephone office and ask for —

"Home Telephone Planning Service."

EXTENSION BELL

Keeps the whole household within earshot of the telephone whether they're indoors or out. The loud-ringing bell is best for patios, workshops and garages. An extension bell of normal volume is usually suitable for indoor locations.

this sign says..

"thoughtful builder"

When you see this emblem on a new home, you know it has been "pre-wired" for convenient telephone service — with built-in outlets throughout the house so that your phones will always be just a reach away.

Many alert architects and builders are thoughtfully including this service in the homes they build. Be sure to specify telephone "pre-wiring" in *your* new home *before* construction begins.

Talk to your architect or builder or, call the telephone office and ask for —

"Home Telephone Planning Service."

this sign says..

"thoughtful builder"

When you see this emblem on a new home, you know it has been "pre-wired" for convenient telephone service — with built-in outlets throughout the house so that your phones will always be just a reach away.

Many alert architects and builders are thoughtfully including this service in the homes they build. Be sure to specify telephone "pre-wiring" in *your* new home *before* construction begins.

Talk to your architect or builder or, call the telephone office and ask for —

"Home Telephone Planning Service."

SPEAKERPHONE TELEPHONE
Gives telephoning a "new dimension." Speak from a distance of several feet into the microphone in the telephone's base . . . hear perfectly through small speaker on desk. It is not necessary to touch or lift the hand-set even when dialing . . . or the telephone can be used in the conventional manner when preferred.

The "Spirit of Service" is a tradition in the telephone business — a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

Could you get to the phone in less than a minute?

Don't—*please* don't—hang up before the person you're calling has time to answer! Remember how annoyed you feel when you reach your telephone just a few seconds too late! So *do* wait *at least a full minute* before hanging up, won't you?

Modern construction methods make it essential that telephone service be planned for at the time the plans for houses are drawn, so that conduit and outlets can be built in during construction.

IT'S HER BUSINESS

A young lady in the telephone business office has the special job of looking after your account.

We call her a "service representative." It may be an unusual title in a way, but service is her business and she's there to represent you in your telephone affairs.

She is trained to deal with service details, bills, equipment and any other assistance that it's possible to provide.

Why Be a Stranger in Your Neighborhood

Look in the Yellow Pages of the Telephone Book

It's surprising how quickly you can get acquainted with your neighborhood stores and services, through the Yellow Pages of the telephone book. If you've just moved into a new locality, you can't be expected to know everything the "old settlers" have known for ages. So next time you don't know where to buy, try the Yellow Pages. They've "been around" for a long time.

Need a mailing service? The easiest way to solve a "sticky" problem is to look in the Classified Section of the Telephone Directory. Whatever or whomever you need—antiques, buttons, carpenters, or dentist, they're all conveniently listed with name, address, telephone number. Make it a habit to look in the Yellow Pages.

Need a mailing service? The easiest way to solve a "sticky" problem is to look in the Classified Section of the Telephone Directory. Whatever or whomever you need—antiques, buttons, carpenters, or dentist, they're all conveniently listed with name, address, telephone number. Make it a habit to look in the Yellow Pages.

Emergencies emphasize the value of telephone service. In times of trouble the telephone is the quickest way of getting help, a real life-saver when every second counts. But its usefulness isn't limited to emergencies. Saving steps, keeping in touch with friends, the telephone serves you in many ways—and at very little cost.

You can bring them home often by LONG DISTANCE

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

Need a mailing service? The easiest way to solve a "sticky" problem is to look in the Classified Section of the Telephone Directory. Whatever or whomever you need--antiques, buttons, carpenters, or dentist, they're all conveniently listed with name, address, telephone number. Make it a habit to look in the Yellow Pages.

Could you get to the phone in less than a minute?

Don't—*please* don't—hang up before the person you're calling has time to answer! Remember how annoyed you feel when you reach your telephone just a few seconds too late! So *do* wait *at least a full minute* before hanging up, won't you?

The "Spirit of Service" is a tradition in the telephone business — a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

Need a mailing service? The easiest way to solve a "sticky" problem is to look in the Classified Section of the Telephone Directory. Whatever or whomever you need—antiques, buttons, carpenters, or dentist, they're all conveniently listed with name, address, telephone number. Make it a habit to look in the Yellow Pages.

The "Spirit of Service" is a tradition in the telephone business — a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

Daily, as upon a magic loom, the world is bound together by telephone.

ENGROSSED

There are people who are so engrossed in what they are doing that they let their telephones ring a moment or so before they answer. It's a natural thing, sometimes, but don't you agree that friends, customers and business associates who come to you by telephone should be received at least as quickly as though they came in person.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

Look—No Hands!

With the
SPEAKERPHONE

you can move around while speaking or listening—hold group talks—without picking up receiver. To use as an ordinary phone, just pick up receiver.

LOOK IN THE **YELLOW PAGES**
OF YOUR PHONE BOOK

Most people do—to get information like this:

- Telephone numbers.
- Local Firm Names and Business Addresses.
- Where-to-buy nationally advertised brands.
- Where-to-fix nationally advertised products.
- Lists of all church, civic, fraternal, welfare and other organizations.
- Lists of professional men.

Frequently Called Telephone Numbers

NAME AND ADDRESS	NUMBER	NAME AND ADDRESS	NUMBER

Your long distance calls will be completed more rapidly if you know the out-of-town telephone number. When an operator gives you an out-of-town telephone number, it will be helpful if you make a note of it for future use.

A handy-sized, personal telephone directory — completely indexed — has been prepared for your use. To obtain a copy just telephone, send a post-card or stop in at your nearest telephone office.

It means so much to keep in touch. Call often!
